

```
“ double totalOrders = 0; for (int i = 0; i < co.Branches.Count; i++) { totalOrders += co.Branches[i].Orders; } ”
```

Translation: More profits for your business.

A good software developer can be a real boon to your business. But it's hard finding one who you understand, and who understands you. At Code Studio, we take the time to learn about your business and your needs. Avoiding geek-speak, we explain what you need to deliver your objectives. And when you're happy with our proposal, we design software that precisely meets your needs.

DO YOU HAVE A BUSINESS PROBLEM?

Like many businesses, you may wish to reduce costs, increase efficiency or improve customer service.

Since your business is unique though, you need a tailored software solution to fully reap these benefits.

CODE STUDIO CAN HELP YOU SOLVE IT.

Since 2004, Code Studio has helped a wide range of clients solve their business problems. We have created bespoke desktop and web-based software that:

- Gives managers better access to data
- Allows clients to manage their websites (CMS)
- Collects details from customers
- Adapts to different users' needs
- Lets customers check the progress of their orders
- Takes bookings
- Sells goods and accepts payments (e-commerce)
- Or simply displays company news (e.g. in a blog)

DEAL WITH A UK-BASED MICROSOFT CERTIFIED DEVELOPER.

We will manage your project entirely in the UK. Then you can deal directly with your Code Studio, English-speaking developer, thereby avoiding any misunderstandings.

GET YOUR FREE, NO-OBLIGATION CONSULTATION.

Do you have a business problem? Let's talk about it, and see if Code Studio can design software that will help you solve it. Whether or not you understand our code, you'll appreciate its benefits.

CODE STUDIO SOFTWARE HELPS YOU:

- REDUCE COSTS
- BENEFIT FROM FIXED-PRICE ACCOUNTABILITY
- MAXIMISE YOUR ONLINE REVENUE
- BOOST YOUR QUALITY OF DELIVERY
- IMPROVE CUSTOMER SERVICE
